THIS IS IMPORTANT TO KNOW FOR THE CHANGELOG
(recommend you read this before you continue)

THE NUMERIC ANNOTATION SYSTEM

The numeric annotation system is based on the number arrangement found on the number pad of a standard keyboard.

Each number corresponds to a different direction.

1 = pressing down and back at the same time.

2 = Pressing down (and so forth).

5 is "neutral position", which means that you don't press any direction and let the joystick return to its neutral position in the center.

COMMON FIGHTING GAME INPUT MOVEMENTS

6 2 3 = Dragon Punch

4 2 1 = Reverse Dragon Punch

2 3 6 = Quarter Circle Forward

2 1 4 = Quarter Circle Back

4 1 2 3 6 = Half Circle Forward

6 3 2 1 4 = Half Circle Back
